PROFILE

I'm a super enthusiastic half Czech half Venezuelan developer. I regularly attend meet-ups and mentor future Founders & Coders applicants. I'm looking for a role in an environment that allows me to express my **creativity**, **eagerness to learn** and **problem solving skills**.

SOFTWARE DEVELOPMENT

FULL-STACK DEVELOPER

Founders and Coders | 2019/20

- Highly-selective 18 week intensive coding bootcamp covering full stack **JavaScript** technology and **real project experiences** with a focus on **cooperative learning** and **mentoring**.

FINTECH MENTORING SCHEME

CodeFirst:Girls @Bank of America, ML | 2019/20

- Mentoring scheme to demystify what roles are available in fintech and finance, and guide women to understand the different career paths into the industry.

WEB APPLICATION DEVELOPMENT CERTIFICATE

CodeFirst:Girls @Bank of America ML | 2019

★ **Winner of Best Final Project** ★

- Part-time and in-person coding course for female/non binary identifying young individuals across the UK and Ireland.
- Advanced Python, Flask and Heroku deployment.

WEB DEVELOPMENT CERTIFICATE

CodeFirst:Girls @PA Consulting | 2019

★ **Winner of Best Final Project** ★

- HTML, CSS (Bootstrap) and Javascript (jQuery)

EDUCATION

INDUSTRIAL ENGINEERING

Yacambu University, Venezuela | 2016

- (Phase 1-2 of 5 completed)

SECONDARY EDUCATION (Science stream)

Colegio Americano, Venezuela | 2014

- UK NARIC - GCSE equivalents inc. Maths

MODERN LANGUAGES CERTIFICATE

Carabobo University, Venezuela | 2014

PROJECTS

SIGNPOST
Role: Scrum master & Developer

React, Express, AirTable, Google Maps API, Google Geocoding API, Google Analytics

- A community-driven service that allows people experiencing or at risk of homelessness to find services relevant for them.
- My main role was to **ensure** successful delivery, communication, and coordination across the team (4), guided by **agile values** and **principles**. I organised daily **stand-ups**, sprints **planning** and **retrospectives**, enhancing my **leadership** and **communication skills.**

🌐 www 💬 code

GATEWAY TO HERITAGE
Role: UX/UI Lead & Developer

React, AirTable, Google Analytics, Netlify lambda functions

- Platform that offers the heritage sector the opportunity to promote their collections to a wider audience for commercial licensing whilst providing a space for intra-sector communication.
- I **worked** closely **with product owners** and **users** to understand requirements and **grooming of user stories.** Implemented a **style guide** for the rest of the team (4) to follow as guidance with the appliance of **React styled-components** to make **reusable** and **clean** CSS **code** in JS files.

BACKGROUND

My previous experiences haven't been directly related to technology but I certainly learnt **invaluable skills** from these and they have **inspired** me into **pursuing my career** as a developer.

Restaurant Manager - Spain & Andorra | 2016/18

Responsibilities: finance of the restaurant, managing the teams, organising the timetables for employees, interaction with clients.
Learning outcomes: team work, organisation and communication skills, managing impatient and demanding clients, work under pressure and financial reporting.

Childcare & Spanish Tutor - London | 2018/19

Connected back to my love of crafting and creating things, and inspired me to continue with my coding journey.
Learning outcomes: leadership, prioritising responsibilities, becoming a role model, organising, patience and teaching/mentoring skills.
